SUMMARY

I Am A Frontend Developer With A Passion For Creating Beautiful And Functional Websites And Applications. I Am Proficient In HTML, CSS, and JavaScript, And Have Experience With the Frontend Framework React.Js.

EXPERIENCE

Frontend Developer with React
Pace Stock Services Privet Limited   **May 2023 - Present, New Delhi**
· **Key Responsibilities**
· 1. Developed and maintained responsive user interfaces using React.js.
· 2. Built reusable and modular React components for efficient code management.
· 3. Handled data fetching and manipulation using React state management libraries like Redux.
· 4. Wrote clean, maintainable, and well-documented code adhering to best practices.

Frontend Developer Intern
Digikull   **August 2022 - April 2023**

PROJECTS

Live data update dashboard for stock market.
Pace Stock Services Pvt. Lt.
· **Technologies-** MERN Stack (React.js for frontend, Express.js/Node.js for backend, MongoDB for database), Axios (API calls), Redux (state management), Tailwind CSS (UI design), WebSockets (live streaming data).
· **Description-** Designed a user-friendly and visually appealing dashboard using Tailwind CSS, making information accessible and digestible. The dashboard displays real-time streaming data and allows users to filter and sort the data by different criteria, such as price and volume. Set up a robust backend using Express.js, efficiently handling data storage, retrieval, and processing.

Compliance Dashboard.
Pace Stock Services Pvt. Lt.
· **Technologies-** MERN Stack (React.js for frontend, Express.js/Node.js for backend, MongoDB for database), Axios (API calls), Redux (state management), Material UI.
· **Description-** Designed an intuitive dashboard using React.js, enabling users to readily visualize and analyze compliance data through clear and interactive tables. The website allows users to store, update, and monitor their compliance data using a user-friendly interface. Implemented CRUD operations using Axios, ensuring seamless data creation, read, update, and deletion in the MongoDB database. Integrated Redux for efficient state management, ensuring consistent data availability and reactivity across the application.

SKILLS

Technical Skills: HTML, CSS, JavaScript, ES6, React.js, Express.js, Node.js, Redux, Bootstrap, Git & GitHub, MongoDB, Material UI, Tailwind CSS, WebSocket.

EDUCATION

Bachelor of Science
Rohilkhand University · Bareilly · 60%

Class XII
Pt. D.D.U.S.V.M. Inter college · Lakhimpur kheri, U.P. · 89.6%

Class X
