

SANDEEP SINGH

Frontend React Developer | React.js • JavaScript • Node.js | 3 Years' Experience

singh008172@gmail.com | +91 81729 86575 | Portfolio | LinkedIn

SUMMARY

Frontend React Developer with 3 years of experience building responsive dashboards, real-time workflows, and e-commerce applications. Skilled in React, Next.js, Node.js, Tailwind CSS, Zustand, and TanStack Query, with a focus on reusable components, performance, and reliable user experiences.

TECHNICAL SKILLS

Frontend:	React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3
Styling & State:	Tailwind CSS, shadcn/ui, Material UI, Framer Motion, Zustand, TanStack Query, Redux Toolkit
Backend & Data:	Node.js, Express.js, REST APIs, GraphQL, WebSockets, MongoDB
Testing & Tools:	Jest, React Testing Library, Vitest, Git, Figma, VS Code
AI Tools:	Gemini, ChatGPT, Claude

EXPERIENCE

Pace Stock Broking Services Pvt. Ltd. | Software Developer

May 2023 - Present | New Delhi, India

- Improved dashboard load behavior by implementing code splitting and lazy loading across critical React modules.
- Resolved cross-browser layout issues across Chrome, Firefox, Safari, and Edge by standardizing responsive CSS with Tailwind CSS.
- Built test coverage for authentication and order-management workflows using Jest and React Testing Library.
- Developed reusable React components and data-fetching patterns with Zustand and TanStack Query, improving consistency across dashboard modules.
- Built real-time order-monitoring workflows with WebSocket updates, live order modification, and cancellation using Node.js and Express.js.

Digikull | Frontend Developer Intern

Aug 2022 - Apr 2023 | Noida, India

- Built responsive React applications and reusable UI components with HTML5, CSS3, and JavaScript for cross-browser compatibility.
- Translated Figma designs into reusable React components and collaborated with the team to debug and refine user-facing flows.

PROJECTS

TradeDesk - Real-Time Stock Order Management System

MERN, WebSockets, JWT, TanStack Query, Tailwind CSS

- Built live order monitoring with WebSocket-driven updates, order modification, cancellation, and BSE contract-file enrichment for daily processing.
- Optimized client-side data caching with TanStack Query and designed responsive, high-performance dashboard tables.
- Implemented secure access controls with JWT, cookie-based authentication, protected routes, and server-side input validation.

ShopFlow - E-Commerce Platform

React.js, Zustand, Framer Motion, Jest

- Built separate Admin and Customer interfaces with reusable components, cart and checkout flows, discount logic, and delivery or pickup options.
- Used Gemini for code completion, ChatGPT for debugging and architecture discussions, and Claude to resolve a complex performance issue during development.
- Implemented responsive product discovery with category sorting, search filters, and Framer Motion interactions across device sizes.

EDUCATION

Master of Computer Applications (MCA) | Sikkim Manipal University

Expected 2027 | Sikkim
